We are a little "gun shy" about the "new rules" of the road at your office. While we've always worked informally and verbally, and you've and the office have always been great to us and very supportive, we're not sure how best to present items for Council Office assistance going forward.

We have the following WTC BID items that need attention:

- 1 - Request for CDO modifications / improvements per letter of about a year ago. This is left over from the Rosendahl administration.
- 2 - Request to control onerous on-street parking of rental vans or adopt corrective legislation as necessary to allow more customer and employee parking. This is also left over from the Rosendahl administration.
- 3 - Request to allow u-turn south bound on Sepulveda at Manchester (it's currently restricted) to enhance access for Westchester Medical Plaza. This is a new request from the medical building ownership.
- 4 - Request to allow temporary loading / unloading green zone parking (it's now yellow zone and being strictly enforced to the detriment of UPS Store customers) at 8929 S. Sepulveda.

Should the WTC BID board adopt a separate letter on each of these items and re-submit them? Or, is there a better way?

BTW, the WTC BID Board supports the formation of the Lincoln Village BID, should the Board send a letter on that too?

Thanks Nate.
